Chafers and Urns

Chafing Dish and Urn (Canned Heat)

1. Use only canned heat in the burner.
2. Fill the water pan with hot water before lighting the burner. If using Urn, beverage must be hot before lighting burner.
3. Low flame is sufficient to maintain proper heat.
4. Keep away from open flame or hot stove.
5. Stainless steel pans can be used for cooking and/or placed in the oven to retain heat.
6. Check pan during use to maintain sufficient water level.

DO NOT USE WITHOUT WATER!!

Use of Canned Heat

Pry the lid from the canned heat, and place canned heat into heat cup. Light fuel, adjusting the lid to approximately half-open.

If all else fails.....
