

HOT DOG ROTISSERIE

36 Dog Cradle Capacity with warmer for 32 buns

OPERATING INSTRUCTIONS

1. Place the desired quantity of hot dogs on the holder. Cradle will hold up to 36 standard hot dogs.
2. When ready to start to broiling, push the switch to **“on”** position and the infinite control switch to **“high”**. NOTE: Lower infinite control setting may be used for slower broiling.
3. The time required to broil hot dogs will vary, depending upon size and the temperature of the hot dogs when placed in the Broil-O-Dog. With the switch **“on”** and the infinite control on **“4-1/2”** average size hot dogs at room temperature will be ready to be served in about 15 minutes. This time can be decreased to 10 minutes by setting the control on **“high”**, but care should be taken so as not to blister the hot dogs at this setting. Turn control to **“2-1/2”** or **“3”** to keep the hot dogs in a ready to serve condition. Hot dogs can be held for several hours on this unit without loss of flavor or shriveling. For continuous use during rush periods, the unit can be left on any setting without harm. NOTE: When you turn the switch to the **“off”** position, you also turn off the heating element.
4. Hot dogs can be added to the hot dog holder while it is turning, without stopping motor. Stopping the wheel for loading purposes will not damage the motor.

BUN COMPARTMENT

Put one quart of water in the bun compartment to keep buns moist and warm. 32 buns can easily fit into the compartment at one time. NOTE: The choice of buns will make a big difference in the operation of this machine. A bun that has a slick surface and doughy interior is not as good as one with a coarse makeup.

CLEANING

1. Be sure to turn both switches to the **“off”** position.
2. Remove hot dog wheel and drip tray and clean thoroughly.
3. Clean inside and outside of the unit thoroughly.

LIGHT BULB: 15 watt, 130 V appliance size oven type lamps
